

Beyond the Halls

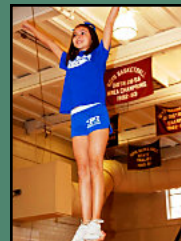

Ryan Heiman

Ryan had his first experience in this "Man vs. Wild" activity at the tender age of 5! He spends a lot of time in the outdoors because of the work he does on the ranch. Ryan learned at an early age to respect the outdoors and also weapons like the 4 guns he owns and his bow. He says he really enjoys bow hunting because "you have to be very quiet and sneak up to get really close." He also says his favorite thing is, "After a hard day of work I like to go eat!"

Kaycee James

Kaycee is just your normal everyday 6th grader here at Jefferson. She keeps up with grades, is a member of the band, and enjoys time with her friends. Outside of school she is definitely flying high. Kaycee has been a member of Pinnacle Cheer since it has been open. She has been competing in individual events for 3 years and holds National Title for the past 3 years, World Series Title for 2 years and High Point Champion for 2 years, all in her division. She has also been featured in American Cheerleader Magazine and does stunt demos for local high schools with the help of her coach. When asked who or what inspired you to go into cheering she simply replied, "My mom."

Jason Alvarez, Matt Ordonez, and Joey Beltran use their time outside of school to make the world a better place by ROCKIN' YOUR FACE! Jason has been playing guitar since he was 10 and his influences are classic rockers like Ted Nugent and Randy Rhodes. The band currently goes by the name *Heat Stroke* but according to Jason, "That's subject to change." Hmmm. There is a name idea... *Subject To Change*.
